

SOUTHERN PAYROLL & BOOKKEEPING

Sophisticated Back Office Support for Healthcare Services

At **Southern Payroll & Bookkeeping**, we provide specialized Bookkeeping, Payroll, HR, and Advisory services tailored to busy healthcare professionals who want peace of mind behind the scenes. Whether you're running a Chiropractic, Therapy, or Dental practice we help you balance expert care with business demands—from staffing and scheduling to compliance and collections

Running a healthcare practice is more than providing treatment – it's navigating insurance reimbursements, regulatory compliance, staffing challenges, and patient volume. We help dental offices, chiropractic clinics, therapy providers, and specialty care practices streamline their back-office operations so they can focus on delivering exceptional care and growing their impact.

Why Choose Us?

Your clients come to you for alignment and relief—shouldn't your back office offer the same? We streamline your finances, reduce admin stress, and help you make confident business decisions at every stage of your practice.

**You restore health. We
restore order behind
the scenes.**

Bookkeeping That's Practice-Perfect

- Track income by service—adjustments, sessions, cleanings, or procedures
- Reconcile EHR, patient billing, and third-party payments
- Manage deposits, refunds, and membership or retainer programs
- Deliver clean, audit-ready financials for banks, investors, or compliance

Payroll & HR That Understands Your Practice

- Process payroll for hygienists, assistants, therapists, and admin staff
- Manage contractor and employee classifications (W-2/1099)
- Automate time tracking, certifications, PTO, and benefit administration
- Stay compliant with HIPAA, OSHA, and state labor laws

Advisory That Backs Your Growth

- Cash flow forecasting aligned with billing cycles and patient volumes
- Profitability analysis by provider, service type, or location
- Guidance through expansion, provider onboarding, and partnership models
- Support with tax planning, insurance audits, and credentialing strategy
